DETAILED ACTION

Claims 1-13 are allowed.

Reasons for Allowance

The following is an examiner's statement of reasons for allowance: the prior art of record fails to teach or suggest the claimed invention. Specifically, the prior art of record fails to teach or suggest setting a trace data flag to on if said module is registered with a performance analyzer, such that if a module includes hooks and trace flag is on analyzer recording trace data in response to trace hooks, and if a module does not include hooks recording trace data in response to entry and exit of said module, as recited in independent claim 1.

The prior art of record, **Roediger** et al. (USPN 5,960,198), disclosed a bit/flag for toggling profiling/tracing of a variety of elements of code. However, **Roediger** failed to disclose the independent claims as recited, including trace analyzer responsive to modules both with trace data hooks and without trace data hooks.

The prior art of record, **Keller** et al. (USPN 5,355,487), disclosed non-intrusive tracing of code. However, **Keller** failed to disclose the independent claims as recited, including trace analyzer responsive to modules both with trace data hooks and without trace data hooks.

Art Unit: 2193

The prior art of record, **Wygodny et al.** (USPN 6,282,701), disclosed toggling profiling/tracing of a variety of elements of code. However, **Wygodny** failed to disclose the independent claims as recited.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
